

IN PURSUIT THE INNACCESSIBLE (Lead Vocal)

$\text{♩} = 63$

8 In pursuit the inaccessible respice in the wavering continuum of

5 being alive, I reach outside myself, embracing succulently

7 a fire of beauty, a pure of fire of empirical knowledge conducive to the

9 propagation of enlightenment, loves come entice. Me to the bond

11 of supernal strength given by her fire, if the lattice strident in it,

13 a spindling strength of lessons to teach and promote the heart's wanting. I

17 But feelings no longer physically isolated from her warmth and

19 inner iridescent essence. I feel the pinch of isolation, but the lessons still remain in

21 the silence of the loneliness. The point of the flame is to learn and grow

once experienced will never be lost. It will last inside of us, infinitely

intertwined in our loving spirits. I still smell her sweet breath,

an apparition of her to recall the love expressed in yours in me, in my all,
